

Advising Syllabus

College of Natural Sciences

Student Academic Success Center

Our Mission:

The College of Natural Sciences Student Academic Success Center empowers students to engage with the UH Mānoa community and author individualized plans for personal success.

Student Learning Outcomes:

Through working with academic advisors in CNS, SASC students will be able to:

- Engage in co-curricular activities to fulfill their interests both in and out of the classroom.
- Seek help when needed by identifying a challenge, problem-solving and implementing the solution through the utilization of campus and community resources to support their success.
- Make connections to how their degree relates to their personal and professional goals.
- Prepare an academic plan that incorporates their required coursework for degree completion and additional experiences necessary for their future career pursuits.

In addition, students will build life-long connections to the University of Hawai'i community, including students, faculty, staff and alumni.

Expectations:

Advisor Commitments

- Provide a positive and respectful environment
- Maintain confidentiality pursuant to FERPA
- Explain academic policies and procedures
- Assist in identifying and utilizing university resources
- Teach the value of a liberal arts education
- Collaborate on educational planning to address academic and professional goals
- Encourage the development of skills necessary to attain work-life-balance
- Guide exploration and selection of co-curricular activities

Student Responsibilities

- Check your @hawaii.edu email regularly
- Come to appointments early and notify SASC if canceling or rescheduling ASAP
- Seek advising on a regular basis
- Be an active participant in identifying your educational goals and creating an academic plan
- Come to academic appointments with questions and/or topics for discussion
- Utilize campus resources such as STAR, Catalog, SECE, etc.
- Take responsibility for your actions
